

Benoak Catalogue 2025

Benoak John T6 (P) pictured after joining February 2025

Offering 5 Bulls

INFORMATION

Hello Devon Breeders,

We hope this year's catalogue finds you all well. The decision was made to sell this year's bulls in the paddock, they will all have all the credentials Benoak aims for and hopefully there's a bull to suit your needs. Our focus is continually on easy doing grass fed cattle that function under normal conditions without high inputs. We have a 6-week joining and only keep cattle that prove their fertility season to season. On Oaklands this year 200 cows, from 2-year-old heifers with calves to 12-year-old cows with calves, were joined to three Devon Bulls in one mob (1.5% bull to cow ratio). The PTIC rate was 90%. This highlights that Devon bulls are one of the best value for money breeds in the industry and Devon females are the breed for all seasons.

The Bulls are presented in strong healthy condition, they have had a complete grass preparation. We believe this sets them up for a sound working life. Vaccinated for Pestivirus, 7 in 1(Lepto) & Vibrio (boosters due April/May 26). Ear notch tested to be Pestivirus negative. We are EU accredited and have a J Bas score of 6.

All Bulls have passed a crush side semen evaluation.

If you are interested in a bull please contact us and we can work out a day for you to visit. They will be sold as a first in first served basis. As usual there is no obligation to purchase and your inspection is welcome.

"NEXT BATCH TO MOTHER UP" February 2025

SALE BULLS

BENOAK JOHN T6

Born: 23/10/22

Ident: OAKT6

Reg: YES
