QUALITY, READY TO WORK, DEVON BULLS.

After a wet autumn, and cold frosty winter with wet muddy paddocks, our bulls have held their condition on hay & a small amount of supplement to present in strong, ready to work condition. The presentation that leads to bulls having long, productive working lives.

Gowan Ross & Vix herds have an excellent health status, free from pestivirus. Bulls are 7 in 1 & vibrio vaccinated. However if moving your purchase to Ephemeral fever prone areas vaccination is recommended.

Condition of sale and assisted delivery as per previous years.

You are invited to phone & arrange a convenient time to inspect our bulls.

Weight 21 May 680kg SS 40cm Solid bull of sound structure and good Devon docility from our Dainty family that originated from Ban Ban.

BORN: 27.12.23

Lots 14 to 22 had an autumn setback owing to muddy holding yards. They have quickly added weight & cleaned up their coats with warmer weather & grassy paddock. Although they are behind other bulls in weight for age, they are strong, sound and fertile.

Weights and additional details available on these and other bulls available, but not catalogued which includes an attractive draft of "V" year bulls that will be catalogued next year.

In total we have 10 horned and 20 poll bulls available for inspection.

This catalogue with colour photographs of bulls can also be found on the DEVON MARKETPLACE attached to the Devon web site, www.devoncattle.com
