QUALITY, READY TO WORK DEVON BULLS

20 structurally sound, well fleshed bulls presented in good working order feature in this spring catalogue. Maintaining them in presentable working order through punishing drought conditions means they have consumed a lot of hay & a light daily ration of supplement. So they will be strong, fertile workers.

Gowan Ross & Vix herds have an excellent health record, free from pestivirus & JD. Bulls are 7 in 1 & vibrio vaccinated. We have no history of Ephemeral fever on Kurrajong or Camkeena so vaccination is recommended if taking your purchase to a 3 day prone area.

Conditions of sale and assisted delivery as per previous years.

You are invited to phone & arrange a convenient time to inspect our bulls.

This catalogue is available in colour on the DEVON MARKETPLACE.
